Deliver Stand-Out Care With Scanners Built To Serve

Healthcare workers have enough to worry about—like delivering critical care to patients. That’s why Zebra healthcare scanners are designed to operate all shift long, work quietly through the night and withstand anti-bacterial cleaning. They become the easiest part of the job.

Stay Focused on Patient Care

Zebra offers convenient solutions for mounting cordless healthcare scanners to a workstation on wheels or an in-room workstation, allowing clinicians to easily switch between handheld and hands-free scanning, while still being focused on patient care.

Source: 2021 Zebra Global Healthcare Vision Study

88% of decision makers and **78%** of clinicians agree that technology can help prevent and reduce medical errors.
